## Hermes Fellowships for Postdoctoral Student in Humanities and Social Sciences, France

<http://scholarshipsbank.com/hermes-fellowships-for-postdoctoral-student-in-humanities-and-social-sciences-france/>

**Hermes Fellowships** were designed to offer young and promising foreign researchers in the [humanities](#) and [social sciences](#) the chance to be visiting researchers in French universities and [research](#) centers. This program is open to researchers from: *China, India, Indonesia, Malaysia, Argentina, Brazil, Chile, Mexico, Peru, and South Africa.*

The Hermes Program is financed by the French Ministries of Foreign Affairs and of [Education](#) and Research, the Department of Human and Social Sciences of the National Center of Scientific Research (CNRS), and the Fondation Maison des Sciences de l'Homme (FMSH).

Hermes fellowships are granted for 3 to 9 month periods. They were designed in order to give foreign researchers the opportunity to:

- carry out an individual research project within a hosting laboratory;
- become part of French and European scientific networks;
- set up lasting partnerships between their home institutions and the hosting institutions in France

The hosting laboratories in France – university research units or research institutions in Paris or elsewhere in the country – are chosen by the invited researchers. This decision is made in agreement with the [fellowship](#) selection committee and the scientific board of the FMSH. This joint process is intended to help candidates make the necessary contacts.

### Scientific Fields Covered by the Hermes Program

All disciplines in the humanities and social sciences are eligible. However, priority is given to research projects addressing issues facing the contemporary world and those that have an interdisciplinary dimension.

Application deadlines: **March 31** and **September 30** of the current year.

Scientific director: Hinnerk Bruhns

Program administrator: Neli Dobrova
