Master Scholarship, Desalination Technology, King Abdulaziz University (KAU), Saudi Arabia

<http://scholarshipsbank.com/master-scholarship-desalination-technology-king-abdulaziz-university-kau-saudi-arabia/>

The Center of Excellence in [Desalination Technology](#) at King Abdulaziz University (KAU), Jeddah, [Saudi Arabia](#) is offering a Master degree scholarship in Desalination Technology for outstanding college graduates from [South East Asia](#) countries.

Applicant should hold a [Bachelor](#) Degree (B. SC.) in [Mechanical](#) or chemical [Engineering](#) from an accredited university with an outstanding GPA (4.5/5 or 3.5/4 or higher). A [TOEFL](#) grade of 500 or higher is strongly required. [Research](#) Experience is preferred and is considered a plus.

Accepted students are supported through the [Graduate](#) Assistantship Program. The program provides awarded students with the following:

1. Tuition waiver.
2. A monthly stipend of 2000 Saudi Riyals (US\$ 533)
3. University student Housing.

Scholarship awarded students will be required to actively participate in Desalination research activities and other related duties as assigned by the center. Continued support for graduate students depends on their ability to maintain exceptional graduate academic standards and perform a high level of Desalination Technology research activities.

Qualified applicants, please email the following:

1. Your CV (resume)
2. a copy of your transcript
3. a copy of your ENGINEERING B.Sc. diploma
4. a copy of TOEFL test result
5. any other supporting relevant documents
