## Otto Bayer Scholarships, Bayer Foundations, Germany

<http://scholarshipsbank.com/otto-bayer-scholarships-bayer-foundations-germany/>

**Otto Bayer** scholarships are open to students in their advanced study period. Disciplines receiving support are:

- Biology, [molecular](#) biology, [biochemistry](#), [biotechnology](#), biological process [engineering](#), [bioinformatics](#)
- [Chemistry](#), chemical engineering, material sciences and [environmental](#) sciences
- Pharmaceuticals and drug discovery
- Physics
- Medical sciences

Bayer supports study projects, internships, summer courses, preparatory and supplementary study courses, as well as theses and [doctoral](#) studies (the program does not include post-doctoral scholarships). The foundation places great emphasis on internationalism, and therefore scholarships are granted exclusively to students from German-speaking countries wishing to study abroad and foreign applicants who want to study in Germany.

Applicants should be able to show good to very good final school marks as well as a particularly good intermediate diploma or an above-average bachelor's exam. Furthermore, a broad horizon and a high level of motivation and personal commitment are expected of all applicants – be it in a social, political or cultural field.

The current call for applications is taking place during the period from June 1 to July 15, 2011. The independent Foundation Board will hold [its](#) next selection meeting on September 9, 2011.
