SU2P Entrepreneurial Fellowships in Photonics, Stanford University, USA

<http://scholarshipsbank.com/su2p-entrepreneurial-fellowships-in-photonics-stanford-university-usa/>

SU2P Entrepreneurial [Fellowships](#) 2011

Awards for Entrepreneurial Fellowships in photonics at [Stanford University](#), USA

Applications are invited from outstanding individuals for the SU2P Entrepreneurial Fellowships 2011. SU2P is a collaboration between the Scottish Universities (Glasgow, Heriot Watt, St. Andrews and Strathclyde) and Stanford and Caltech in [California](#).

The Fellowships are to enable exceptionally talented early career researchers to spend one year at Stanford University or one of [its](#) affiliated laboratories. The aim of the Fellowships is to allow successful applicants to develop and grow their entrepreneurial skills under mentoring provided by Stanford Photonics Research Centre (SPRC). A range of priority research themes has been identified including, but not limited to:

- Stem cell imaging
- Solar cell devices and [technology](#)
- Lasers and nonlinear optics
- Integrated photonics
- Photonic sensors.

The closing date for 2011 applications is **11th March 2011**.

Applicants are advised to contact **one** of the Scottish university partners listed below, in the first instance, to discuss potential projects. **Applicants should NOT contact Stanford University directly**. Details of the research themes of the working groups of SPRC can be found at <http://photonics.stanford.edu/research>.
