The Indonesian-German Scientists Exchange Program

<http://scholarshipsbank.com/the-indonesian-german-scientists-exchange-program/>

The Indonesian-German **Scientists Exchange Program** is a joint project by the DAAD and the Directorate of [Research](#) and Community Service [Development](#) (DIKTI) in the Indonesian [Ministry of Education](#) and [Culture](#). Each year, up to 5 scientists from higher [education](#) institutions or research institutes from both countries may take part in the exchange.

The program is open to scientists from all disciplines. [Its](#) aim is to intensify existing contacts between scientific institutions in the partner countries. The exact mode of cooperation depends on the needs of the participants; research stays can be supported as well as participation in colloquiums and visits as a guest lecturer. General information visits can not be supported.

Applicants must hold a PhD. Applications require existing contacts to a German colleague, with whom the work plan and the time schedule of the visit has to be discussed. The length of stay is from 2 weeks to three months.

Application documents for applicants from [Indonesia](#):

- Completed DAAD blue form; download [here](#)
- Curriculum vitae
- List of publications
- Research proposal /visit plan and program
- Invitation from the German partner institution
